CombiPlast

Case erecting and bag placing

The CombiPlast is a high-quality packaging machine designed to streamline your packaging process. The CombiPlast combines case erecting* and bag placing in one compact machine, making it an essential element for any packaging line. With the use of our premade EasyOpen bags you achieve maximum efficiency while minimising your use of materials. The CombiPlast offers 24/7 non-stop production, making it the perfect solution for businesses looking to maximise productivity and save on labour.

**No need for case erecting? Check out the EasyPlast.*
