EasyPlast

Bag placing

The EasyPlast bag inserter is a revolutionary machine that has changed the way companies handle bag placing. Designed to work with a very wide variety of bag and box sizes, the EasyPlast is the most reliable and efficient way to pack many different types of products. The machine is incredibly fast, with the ability to place up to 25 bags per minute. Through the use of our premade EasyOpen bags, you can maximize efficiency and minimize your use of materials. The EasyPlast helps you save on costs and reduce manual labour.

Check out our video about the EasyPlast!

24-hours non-stop

Bag refill without any production stop

Compact design

Smallest footprint possible for bag inserting

Very reliable

Low maintenance & cost efficient bag inserting

4 steps

How the EasyPlast works

1 Product carrier input

2 Bag opening

3 Bag spreading

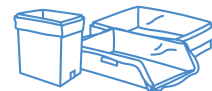

4 Bag inserting
