Stairway

Entry-level product counting and filling

The **Stairway** is a budget-friendly counting machine, specifically designed to efficiently separate, count and pack baguettes or other elongated products. Thanks to the simple yet effective sawtooth motion and an accurate photocell, each product is perfectly separated and tumbled into the box. This machine offers reliable performance for small to medium quantities. We always guarantee the lowest total cost of ownership, ensuring you'll spend less over time on maintenance, energy consumption and other operational costs compared to alternative solutions.

Check out our video about the **Stairway!**

Budget friendly

The perfect counting and filling machine for volumes.

Easily adjustable

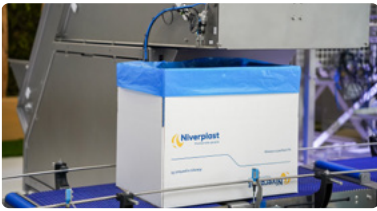

Effortlessly adapt to different product sizes with a movable bed

Straightforward technology

The simple principle makes the machine reliable, easy to clean and low-maintenance

5 steps

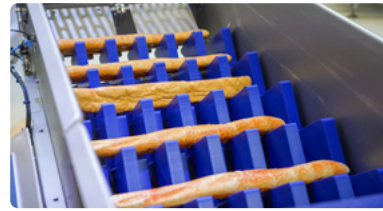

How the Stairway works

1 Product carrier input

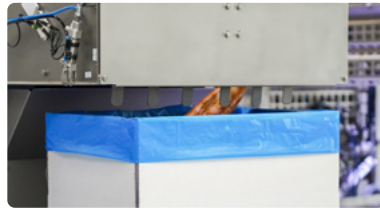

2 Product transport

3 Product separation

4 Product counting

5 Product filling
